### **RECORD OF INTERVIEW**

Sir:

In response to the interview conducted on **31 March 2009**, please find a record of the interview below.

#### **Identification of Claims and Prior Art Discussed**

Applicant and Examiner discussed § 112 rejections as applied to claims 1, 34, and 43-44 of the instant application.

#### **Applicant's Arguments**

Applicant indicated that it is an intended aspect of the invention to provably disable the circuit board, therefore claim 1 appears to need no further clarification. Furthermore, Applicant pointed out to Examiner that the identification mechanism *uniquely* identifies the key area as being originally

attached to the circuit board. The identification mechanism may include an electronic ID chip.

**Outcome of Interview**

Examiner maintained § 112 rejections for claim 1 and will respond to Applicant's amendment/remarks in a subsequent Office Action.

Respectfully submitted,

By /Anthony Jones/
